## Recruitment

HumaNet initiates the recruitment process by capturing manpower need at the place of requirement and posts the same on to each employee's homepage, after an approval process, where the management and the HR is involved. It is finally filled up, after the HR filters the candidates, who are referrals of the employees themselves.

- ▶ HOD makes a requisition for a resource need.
- ▶ HR views the same and sends for approval by authorized personnel.
- ▶ After the approval, it will be then posted on to the intranet for all
- ▶ Employees to make referrals/internal recruitment.
- ▶ HR can view list of candidates by either by Referral /Internal Recruitment

### If selected referrals

HR  can view candidates who have been referred

### If selected Internal Recruitment,

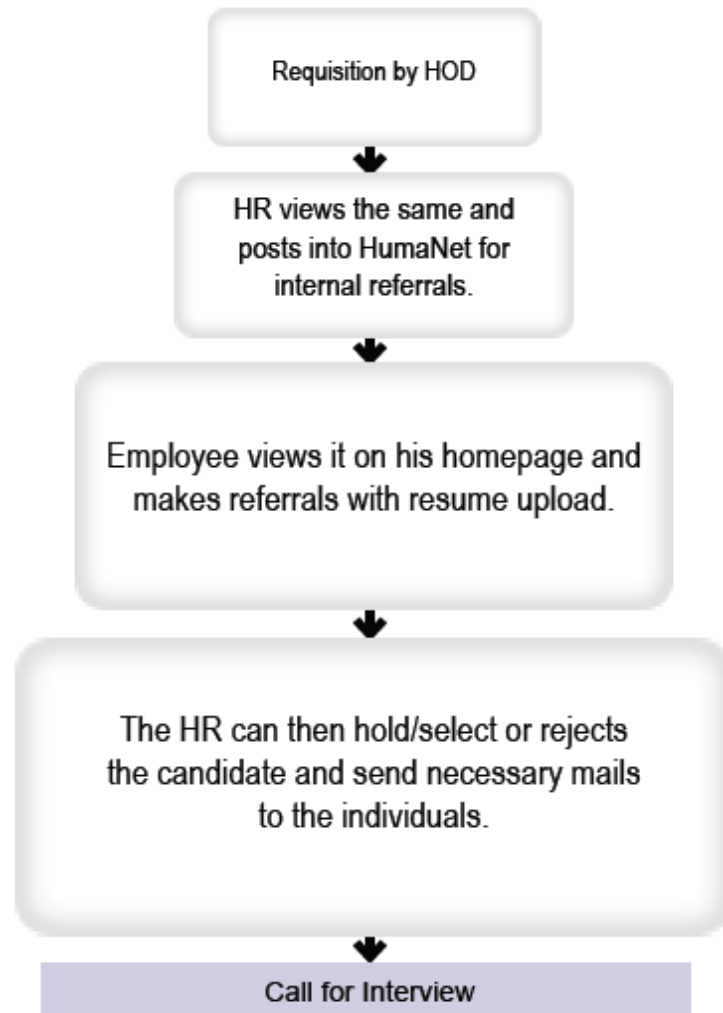

HR can view employees who are candidates.

# Product Description

## Induction

HumaNet prepares a new employee to merge into the organization's culture, policies, rules and other information by taking the individual through certain static presentations, screens that describes all of the above. He is finally asked to submit, that he would abide by the rules and regulations as listed in the HumaNet.

The screenshot shows the HumaNET web application interface. At the top, there is a navigation bar with the HumaNET logo, the date '23-8-2013', and a welcome message 'Welcome HRM Super User'. There are also 'Home' and 'Log Off' links. On the left, a sidebar menu lists various HR functions like Masters, Policies, Employee, Separation, Resourcing, Recruitment, Induction, Attendance, Leave, Leave-HR, Training, and Time Sheet Mapping. The main content area is titled 'Induction' and 'Induction Schedule'. It displays a table with columns for Faculty, From Date, From Time, To Date, and To Time. The table contains one entry for 'AmalJoshi' with a start date of '22/08/2013' and an end date of '25/08/2013'. Below the table, there are sections for 'Details Of Candidates', 'Select Candidates', and 'Intimation Will Be Sent To'. At the bottom, there are 'Submit' and 'Clear' buttons, and a 'Send Mail' checkbox.

Faculty*	From Date	From Time	To Date*	To Time*
AmalJoshi	22/08/2013		25/08/2013

## Training

Training in HumaNet takes off from Development plan, where training needs are mapped to training program. This is a dynamic process and continuous till the yearend. The post training final feedback is captured to gauge the effectiveness of the program. An action plan is then drawn out for each individual and a performance monitoring is maintained till the next Appraisal comes into force.

## Product Description

- ▶ Training calendar derived for the entire year.
- ▶ Supervisors too can recommend their subordinates after looking at the calendar.
- ▶ Once the Training Program has been conducted, the Employee fills up his feedback w.r.t the training Program.
- ▶ The participant's action plan is filled up by the individual.
- ▶ A performance monitoring system by way of Training Effectiveness is been captured by HumaNet.
- ▶ History of employees with regards to training program will be kept.

## Leave Process

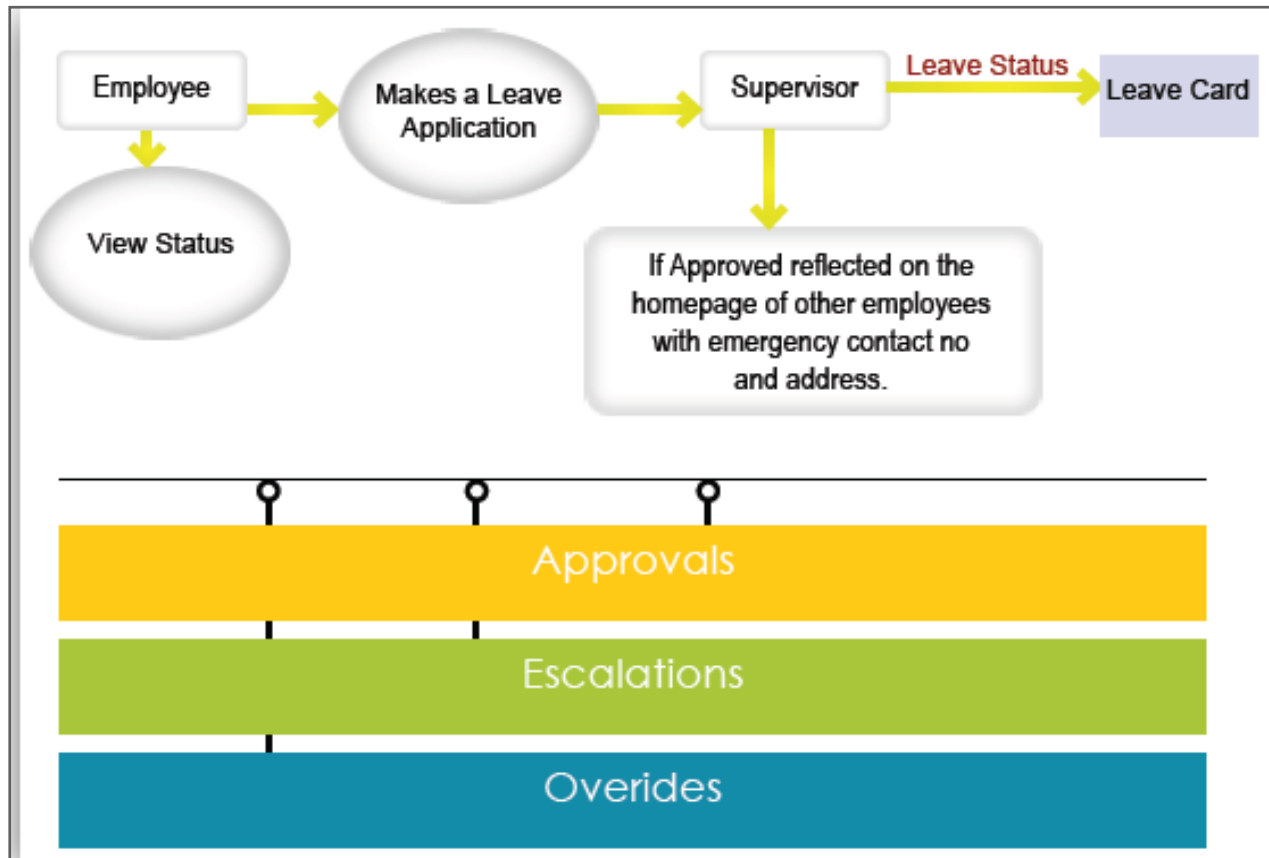

HumaNet facilitates the employees by capturing a leave application and routing the same to their Superiors for approval. The final status of the leave is finally updated in the Leave card of the Employee. The people on leave are flashed in all the homepages of all individuals, wherein details of their contact no and address will be displayed, in case of an emergency.

- ▶ Employee fills up the leave application and submits it.
- ▶ List of employees whose leave application needs to be approved appears in the superior's page wherein he approve/reject the leave.
- ▶ Employee can view status with respect to his leave application.
- ▶ Employee can cancel her/his leave also
